

## ◆ Step 1: Scan the QR Code

- Scan the QR Code or click on this link:  
<https://portal.testapp.io/i/Jn26Nen2xB>
- It opens **TestApp.io** and shows your test app. Sign in by your email or create an account. Once done, you will receive a verification code to verify your account.

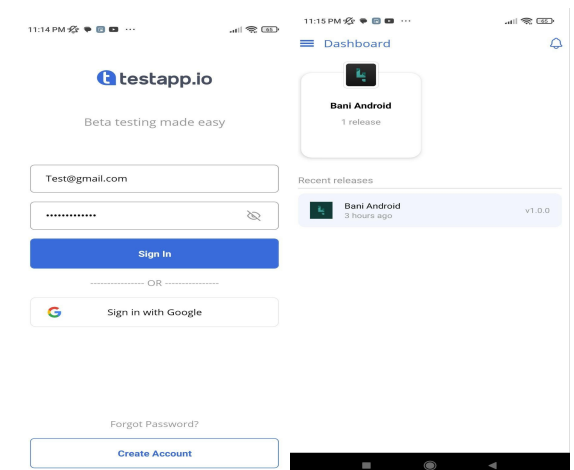

## ◆ Step 2: Downloading test App after account verification

1. Click on “Get our android”
2. Upon clicking the “Get android” mobile screen will ask “Install”

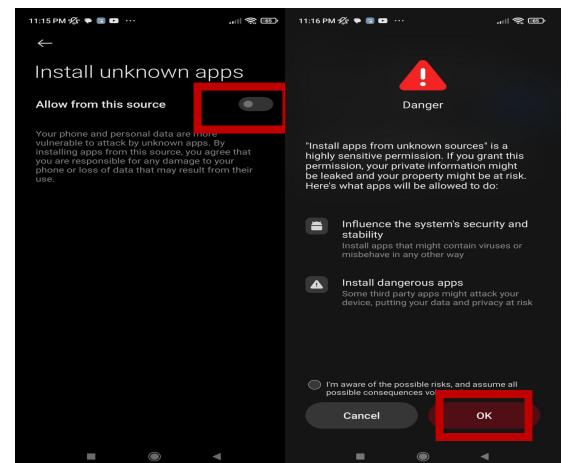

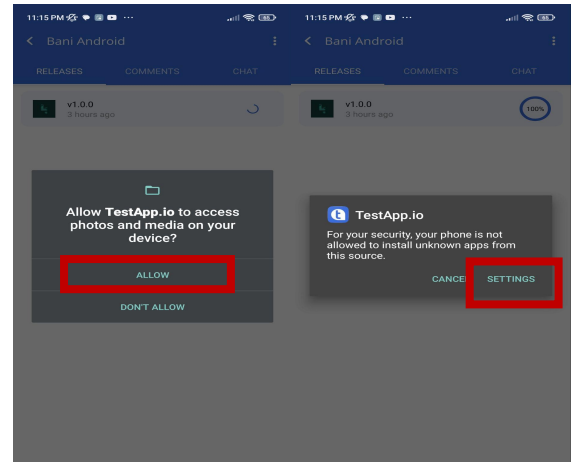

## ◆ Step 3: Install the App

1. Log in the test app by the same email used in the first step
  2. Click on Bani Android
- ⚠ If prompted about security, tap **Allow** or **OK** to proceed with the download.
  - ⚠ After the toggle - Some phones might give this “Warning”. Please agree with the radio button and click “OK” to go next step

## ◆ Step 4: Allow permission

1. When prompted about security, tap **Allow** or **OK** to proceed download.
2. Update the settings
3. Enable allow from this source

## ◆ Step 4: Install the App and start testing

- Install the app and then tap the app icon from your home screen.
- Report any bugs or feedback if needed, by simply:
  - Shake to report
  - Take a screenshot and send beta feedback
